RECOMMENDATIONS

Handling conditions vary from customer to customer. We recommend validating your processes (filling, conveying, warehousing and any others that might affect the purchased part) prior to use. Product usage temperature is between -9.4°F (-23°C) and 179.6°F (82°C) depending on resin grade.

WARRANTIES

- Some chemicals can affect the integrity of the product. Any product requiring a Safety Data Sheet (SDS) has to be submitted and approved by IPL. If buyer fails to adhere to this clause, the related product guarantees will be void.
- Specifications may vary slightly over time. Please contact your IPL representative to ensure you have the most recent information.
- The information presented herein was prepared at IPL Inc. by qualified technical personnel. To IPL's knowledge, it is true and accurate. However, the information and recommendations are furnished for these products with the understanding that the purchaser or user will independently determine that the product is suitable for the intended use, and that such use, complies with all applicable laws and regulations. The data represents typical values submitted only for the user's information and consideration and does not constitute a warranty of any kind.
