

podorize

ODOR NEUTRALIZER

Bio degradable

podorize

is in the air

Podorize releases a fragrance and a neutralizer at once. Even if the fragrance decreases over time, the neutralizer action lasts throughout the product lifetime.

Podorize reacts to heat and its neutralizing effect intensifies with increasing temperatures to effectively fight odors for up to 4 months.

Podorize is biodegradable and designed to be composted in commercial facilities.

- Neutralizes odors, does not simply hide them.
- Reduces the presence of insects.
- Fits most wheeled bins.

Efficient by nature

By choosing effective and environmentally-friendly products, you help building a sustainable future.

Bio  **degradable**

podorize

ODOR NEUTRALIZER

FEATURES & HIGHLIGHTS

- Neutralizes odors, does not simply hide them
- Reduces the presence of unwanted insects
- Fits in most wheeled bins
- Environmentally-friendly product
- Biodegradable odor neutralizer
- 100% recyclable container
- Proven odor concentration, hedonistic tone and odor strength according to EN 13725 & VDI 3882.

PRODUCT SPECIFICATION

	LENGTH	WIDTH	HEIGHT	STACKING HEIGHT	WEIGHT	QUANTITY
	IN	IN	IN	IN		
Product	4 1/4	4 1/4	1 3/4	1 3/8	170 g	----
Shipping box	17	12 3/4	10 3/4	----	15 kg	84 units
Pallet				----	480 kg (excluding the pallet)	32 boxes

Duration of product effectiveness	4 months
Usage temperature limit	-25°C (-13°F) à 55°C (131°F)
Maximum storage time	12 months
Color	Green
Fragrance	Mint
Quantité (ml)	140 ml in solid state
Biodegradable	BPI approval in process (Biodegradable Product Institute)
Toxicity/Safety	The nature and concentration of the ingredients do not present a major risk of poisoning if swallowed. The product can be handled with bare hands without danger provided that the user washes his hands after use.
Product Status when opening the container	Does not stick to the wheeled bin, it is non-greasy and does not leave residue on the user's hands.
State of the product during use	Dry, does not stain, does not break, does not liquify (between the temperature limits)

INSTALLATION AND RECOMMENDATIONS

Podorize is biodegradable and designed to be composted in commercial facilities. Please Consult with the local solid waste authority to determine if podorize can be disposed in the organic bin.

It is recommended to leave your bin in the shade during periods of extreme heat to maximize the life cycle of the product (up to 4 months).

CERTIFICATIONS

Proven efficiency based on laboratory tests measuring the following olfactometric parameters:

- Odor concentration according to EN 13725
- Hedonistic tone and odor strength according to VDI 3882
