Injection Molded Lids & Overcaps

IPL's overcaps are trusted by many of the world's leading brands in the food industry.

With over 50 years experience

IPL has the engineering expertise on staff to help design and guide your project from conception to production of a custom lid.

PRODUCT DEVELOPMENT

Take advantage of several R&D support services available at IPL's Innovation Center, including: Design & 3D modeling, 3D printing, prototype molding, small production runs and on-site support.

CUSTOM LIDS

Well over 50% of our business is comprised of custom lid designs. Improve your business with our value-added and innovative lid solutions. If you do not find the lidding solution you are looking for in the following pages, please contact us for custom development.

Wide variety of colors and decoration

Perfectly compliment your brand with limitless color matching possibilities and versatile decoration options such as:

- In-mold labeling (IML)
- Paperboard insert molding (PIM)
- Dry offset printing
- Engraving & Embossing

Hinged lids

Perfect for grated or crumbled products

Strawhole lids

Perfect for on-the-go consumption

Tamper evident lids

Multiple product applications IML decoration optional

Vented lids

Perfect for microwavable soups and meals

Plastic Container Overcap Series

MARKETS INCLUDE

Confectionary, dairy, dips, sauces and soups, coffee, dry ingredients, foodservice, pharmaceutical, petcare and homecare products

info.cps@iplglobal.com

IPL'S CONSUMER PACKAGING SOLUTIONS IN NORTH AMERICA

IPL partners with customers to drive innovation by offering a dedicated R&D team to create custom and sustainable packaging with speed-to-market capabilities.

North America Footprint

- 100+ injection molding machines
- 3 manufacturing sites
- 2 R&D facilities

Technical support

Ensure and facilitate a successful transition with our on-site Technical Support. Since no two handling conditions are alike, we recommend qualifying our lids at your facility prior to conversion with a focus on the following areas: conveying, warehousing, filling, capping.

About

IPL inc. Consumer Packaging Solutions is a division of IPLP Group. To learn more, visit www.iplglobal.com.

Certifications

The raw materials used are tested according to ASTM standards for polymers, are approved for food contact and meet FDA (Food and Drug Administration, USA) and HPB (Heath Protection Branch, Canada) regulations.

Quality assurance

Product life can vary depending upon storage conditions. We recommend a cool, dry storage area out of direct sunlight. For optimal performance, we also recommend product be acclimated to production temperatures 24 hours prior to production

Terms and conditions

For warranties, handling, processing, filling and testing recommendations, please refer to our full terms and conditions sheet available upon request.
